DOC HARLANS BERT	Harlan's Man Shelly Dodds	Harlan Quarter Beut Ken Dodds Stacy Dodds
RAGUS BARBIE SOCKS	Skipper's Matt Miss Barbie Socks	Skipper's Lad Spanish Cupid Ragus Bars Snip's Barbie

Owned by HS Bar Ranch • Harlan & Sandy Barnett • Soldier, Kan. CD Harlans Sugarbert is a gray stallion with black points and is double registered in the AQHA and the FQHR. His sire is Doc Harlans Bert by Harlan's Man by the great stallion Harlan. We purchased CD Harlans Sugarbert in the fall of 2000 in Tulsa, Oklahoma, from his breeder when he was six months old. He stands 14.3 hands and weighs 1,000 pounds. CD Harlans Sugarbert is all that we knew he would be.

This giant gentleman can work all day and baby-sit that evening. We use him to gather cattle and round up bulls on the ranch. He has the heart to work and will do what ever you ask of him. When it is time to work, we just whistle for him and he is ready to go. Our grandchildren ride him in the evening and it is this great spirit that makes him a super companion. "Harlan" is not a tall horse but fast on his feet. He can stop and set down and turn on a dime.

CD Harlans Sugarbert has a show record with the Kansas Foundation Quarter Horse Review. In 2001 when he was not quite two years old, he won Grand Reserve Champion in the halter class and has won several firsts and seconds during the show seasons, along with another Grand Reserve Champion in 2005.

His foals take on the same spirit and disposition that CD Harlans Sugarbert possesses. He passes on that great baby doll head and the bulldog bodies that will work with all their hearts. He produces very easygoing foals that are people friendly and fast learners. You won't go wrong with his breeding in your program! CD Harlans Sugarbert stands for service at the ranch in Soldier, Kansas. We guarantee live foal and supply mare care. We thank you for your interest in our stallion.

First, let us welcome everyone for taking time to look over and read about our horses. Please feel free to call and visit with us about any questions that you may have about our horses. We will be more than happy to visit with you and show you our horses anytime. Foundation bloodlines and breeding is used to get the disposition and usability needed to make a good horse. We breed for soundness, good mind, solid conformation, heavy muscling, quick reflexes and, of course, cow!

We would like to thank everyone here today – consignor, sale staff, family and friends, along with you, the buyers. Without each of you and your participation, this sale would not be possible. THANK YOU ALL!
