ABOUT THE CLINICIAN

Peggy Brown is an international Level IV Centered Riding® and Driving Instructor and Clinician. She has taught clinics and given demonstrations in Centered Riding, Centered Driving, safety, teaching and horsemanship in North America, Australia, Europe and the UK. Peggy is well-known as the "Visible Rider®" in the Anatomy In Motion® videos and demonstrations.

Peggy has trained horses and riders for over 30 years at her stable, Walnut Hill Farm in Toledo, Ohio. She coaches students and competes in dressage (Third Level), hunter, jumper, English and Western pleasure and performance classes, trail, pole bending, barrel racing and versatility classes.

Peggy currently competes in Combined Driving Events at Advanced Level with her Haflinger mare. Peggy was long-listed for the US Equestrian Team in Combined Driving for 2003 and 2004.

Peggy's specialty is versatility training and helping people understand the better use of their bodies in riding and driving.

Peggy helps riders learn more about their own bodies, how the rider's body affects the horse's body, and how to learn to use their bodies in a way that allows clear and balanced communication with their horse.

Who Should Attend?

Riders of any discipline and riding level, who want to improve their balance, security, performance, and overall enjoyment of their horse.

Riding Sessions: For riders new to Centered Riding, *Intro to Centered Riding* is offered. For qualified riders with previous Centered Riding clinic or lesson experience, *Continuing Centered Riding* and work in specific disciplines is available. Riding sessions will be limited to 2 to 4 riders per class, to allow more individual attention for participants.
