Purina Mills Nutritional Experts will be on-air to answer your questions.

**"Animals Make Better People, We Make Better Animals"**

**MONDAY**  
Sept. 18

### Horse Nutrition

*From Birth to Seniors*

Join Purina Mills brand Equine Phd's and veterinarians as they discuss the objectives and findings that have taken place at the Longview Animal Nutrition Center Equine Facilities in Grays Summit, MO. The group will highlight the effects of feeding properly balanced diets to performance, Senior and Growing horses, as well as field hot topics in today's horse feeding industry.

**MONDAY**  
Oct. 2

### Cattle Intake

*Using Unique Technology for Building Better Cattle*

Land O Lakes Purina Feed Cattle Phd's will discuss feeding innovations from the Longview Animal Nutrition Center beef facilities. Cattle that perform to their genetic potential as well as look good is the goal of most cattle owners, this panel will discuss options that make this happen and optimize the use of the feeder's own forage through "Intake Modifying Technology".

**MONDAY**  
Nov. 6

### Deer Management

*Better Deer through Nutrition and Wildlife Management*

A panel of deer nutritionists from Purina Mills Wildlife feed brands and a Wildlife Manager from "The Sanctuary" deer operation in Stanwood MI. will discuss nutrition and management techniques to build a better deer. This will include the effects of proper timing of Nutritional Supplementation and habitat management to potentially improve wild deer populations.

**STARTING AT 8:00 PM** Eastern Time
